INTRODUCTION

“We only have one future,
and it will be made of our
dreams, if we have the
courage to challenge
convention.”

—SOICHIRO HONDA

WHO WE ARE

Honda Performance Development (HPD) is the North American racing division of American Honda.

Our challenging spirit ignites our best thinking and powers the imaginative ideas we bring to life.

WHERE WE ARE LOCATED

25145 ANZA DRIVE
SANTA CLARITA, CA 91355

Talon Crate Engine

\$8,499.00

*Engine are available for competition use only and have no warranty

Engine Type	999cc liquid-cooled Unicam® OHC longitudinally mounted parallel-twin four-stroke
Valve Train	OHC, 4 valves per cylinder
Bore x Stroke	92.0 mm x 75.1 mm
Compression Ratio	10.1:1
Induction	Fuel injection
Ignition	Full Transistorized
Starter	Electric
Transmission	Automatic DCT w/ 6 speeds + Reverse & high/low sub-transmission
Clutch	(2) multiplate wet (DCT)

Honda Performance Development offers the Talon Crate Engine for off-road Talon racers.

The same engine that propelled the Honda off-road Factory Racing team to victory at the 2022 King of Hammers (UTV Stock NA Class) is now available to the public. Any racer who dreams of victory can now experience that same power with this new Talon Crate engine.

Engine	Type: Longitudinal/mid-mounted twin-turbocharged DOHC 75 V6
	Bore x stroke: 91 x 90mm
	Capacity: 3501cc
	Power/torque: Per FIA/ Series Regulation (BOP)
	Construction: Light alloy block and head
	Pistons: Cast aluminum
	Valvetrain: 24 valve, IN/EX VTC, chain driven camshaft
	Fuel Injection: Direct and port injection
	Lubrication: Dry sump system
	Throttle control: Drive-by-Wire throttle system
	Wastegate control: Electrical
	Turbocharger: 2 off- Mono scroll
	Exhaust: Twin pipe with CAT converter

Dimensions	Wheel base: 2630mm, Overall length: 4612mm, Overall width: 2040mm, Front track: 1715mm, Rear track: 1687mm, Weight: 1240 Kg (prior to BOP adjustments)
------------	--

Chassis	Aluminum alloy extruded profiles/cast nodes; steel roof structure, TIG welded roll cage in 25CrMo- bolted to chassis
---------	--

Transmission	Gearbox: XTRAC semi-automatic 6-speed sequential Clutch: ZF/SACHS high performance sintered or carbon clutch (endurance option) Clutch Operation: Electrically assisted Driveline: PANKL double tripod system
--------------	--

Brakes	BREMBO disks 390x34 front/ 355x32 Rear ABS (VF): BOSCH M5
--------	--

Suspension	Front: Double wishbone
	Rear: Multilink
	Shock absorbers: SACHS 5-way adjustable dampers
	Sway bar: FR/RR with adjustable blade

Wheels	Front: 12"x 18" forged aluminum Rear: 13"x 18" forged aluminum

HPD Academy

The HPD Drivers Academy is a four-part development experience for drivers who are looking to gain the skills needed to be ready to race at an elite level in North America or in a global series. As the preeminent OEM racing organization in North America, one of HPD's core principles is to support drivers in achieving their racing dreams.

The HPD Driver Academy embodies this by providing extensive track time in the Acura NSX Evo22 and Civic Type R TCR, and access to experienced professional GT3 Evo22 and Civic TCR drivers, HPD engineering and trackside support staff, and SRO and IMSA Championship engineers and team owners.

The program includes on-track racecraft coaching sessions at some of the top racetracks in the U.S., off-track instruction relating to effective communication with team personnel and engineers, and additional driver marketing insights and sponsor searches.

For further information on this program and how to apply for future academy spots please click the link below.

2022 Indianapolis 500 Winner
No.8 Honda for Chip Ganassi Racing

INDYCAR Racing

HPD was founded in 1993 to spearhead Honda's entry into INDYCAR racing. No other manufacturer has matched Honda's success in INDYCAR, which includes over 213 race victories, 10 Manufacturers' Championships, and 15 Indianapolis 500 victories.

INDYCAR racing has been part of HPD's history from the start. From developing state-of-the-art engine technology, to providing technical support to teams at the track.

INDYCAR

The spirit of Acura vehicles is first born on the track, where Precision Crafted Performance is constantly improved through racing.

Acura's ARX-05 and NSX GT3 Evo22 compete in IMSA's WeatherTech Championship Series. The ARX-05 race car is powered by the race-proven AR35TT twin-turbocharged V6 which is derived from the Acura MDX engine. The NSX GT3 Evo22 uses a 3.5 liter, twin-turbo V6 engine which is the same as in the NSX production vehicle.

HONDA RIDGELINE WITH HPD PACKAGE

BAJA RIDGELINE RACE TRUCK

hpd.honda.com

Baja Ridgeline Race Truck

Marking its return to 4-wheel off-road desert racing the custom built unlimited off-road race vehicle is backed by HPD.

Powered by a twin-turbocharged V6 engine, the Ridgeline Baja Race Truck features a body designed by Honda R&D Americas' Los Angeles Design Studio, with inspiration taken from the current Honda Ridgeline, also designed and developed by Honda R&D North Americas.

Making approximately 550 horsepower, HPD's 3.5-liter HR35TT engine uses the same block and cylinder heads as the production Ridgeline V6.
